Description

The Akyga **AK801BS** Micro Tower case is a product that combines the capabilities of large enclosures with the advantages of small forms. Black matte front with navy blue and silver accents will make you no longer want to hide the computer between the shelves, but fit it into the decor of your interior and workspace. Rounded edges of the casing give the whole elegant yet modern finish. In addition to the aesthetic appearance, the casing has a wide range of options for expansion and adaptation of the interior, so if you are building a computer and especially value the functionality that is within reasonable price - this product is for you.
The casing allows one to four different types of motherboards to be used. In addition to the **Micro ATX**, **Mini ITX** and **Flex ATX**, it is possible to mount a standard **ATX** motherboard, which is an important asset in adapting the components to changing needs and requirements. The **5.25" external bay** located on the top will allow you to mount a CD/DVD drive or burner, and the **3.5" external bay** can serve as a space for memory card reader. Inside there are **three 3.5" bays**, which also allow the use of **2.5" drives**. The cable management system and customizable internal cutouts facilitate the installation of components, while the spacious interior allows for the installation of graphics cards up to **320 mm** long. Responsible for efficient cooling can be up to **three fans**. Space for two of them, a diameter of **8 cm or 12 cm** are provided on the side panel. On the back of the case there is a space for the third fan with a diameter of **8 cm or 9.2 cm**. The maximum height of CPU cooling system is **135 mm**. On the front panel there are **two USB 2.0** ports, which are great for connecting wireless mouse, keyboard, external storage or other peripherals. Right next to are the headphone and microphone inputs. Thanks to this position of the sockets, connecting equipment is fast and convenient.
To protect the environment, all Akyga cases are packed in EcoBoxes.
